

Test Technician

CDM Electronics, Inc. is currently seeking a Test Technician to join our fast growing cable assembly department. Test Technician will be responsible for performing daily testing of our cable assembly and wire harness products.

Duties to include:

- Set up and operation of various test equipment such as Cirris, Fluke, network analyzer, pull tester and multimeter in accordance with CDM test procedures.
- Recording and maintaining test data.
- Diagnosing test failures and coordinating repairs with assembly personnel.
- Building and maintaining fixtures as required.
- Other duties as assigned by management.

Requirements:

- 3-5 years experience with cable assemblies, wire harnessing and box builds.
- Experience with resistance, hi-pot and computerized testing systems.
- Ability to interpret and comprehend mechanical/electrical wiring diagrams.
- Soldering experience and use of crimp/hand tools directly related to cable/harness work.
- Basic computer skills.
- Ability to follow detailed instructions and friendly disposition is imperative.
- Certified to IPC WHMA-A-620 and J-STD-001 a plus.

If you do not meet the above requirements, please do not apply

The ideal candidate will be a fast learner, have high initiative, is detail oriented, organized; and has the ability to work well both independently and in a team environment.

Position is F/T 7AM-3:30PM Monday-Friday.
