Railway Interchange RSSI Booth #2313

CDM Electronics to Exhibit Broad Range of Interconnect Technologies and Solutions at the 2017 Railway Interchange RSSI 57th Annual Exhibition

Turnersville, NJ, September 13, 2017... [CDM Electronics](http://www.cdmelectronics.com/), a premier authorized distributor of electronic connectors and cables, will showcase their extensive portfolio of railway connectivity products and value-added cable assemblies at the 2017 Railway Interchange RSSI (Railway Systems Suppliers Inc.) 57th Annual Exhibition at the Indianapolis Convention Center in Indianapolis, IN on September 17-20, 2017.

CDM will present its comprehensive offerings of connectors and interconnects designed to optimize the efficiency and safety of rail-specific connectivity, as well as to assist OEMs' speed time-to-market. Parts include circular, Ethernet, USB and RF connectors from such leading manufacturers as [Amphenol PCD](#), [Binder USA](#), [CONEC](#), [Eaton Corporation](#), [Sumitomo](#), [TopFlite Components](#) and [Winchester Electronics](#), as well as intercoach Ethernet and power transmission jumper cables.

Also featured are semi-custom RF assemblies utilizing [Times Microwave LMR](#) series of flexible, low loss coaxial cables. All value-added cable assemblies are manufactured by J-STD-001 and IPC-620 certified operators at CDM's ISO 9001:2008 and UL Listed facility. Notably, CDM's value-added contract services incorporate design and logistics, CAD capabilities, bar coding, labeling, laser marking and serialization. Most assemblies are RoHS-Compliant.

CDM's state-of-the-industry interconnect technologies and solutions are widely employed in the broadest spectrum of commercial, industrial, military, train control, and communications applications. They are frequently specified for use in [Positive Train Control \(PTC\)](#) systems, critical locomotive and trackside RF signaling, Automatic Train Control (ATC), on-track collision avoidance systems, high-speed Ethernet data transmission, WLL, GPS, WLAN, WISP, WiMax, SCADA, interior lighting systems, and alternative energy signaling.

CDM stocks a substantial inventory of all the commonly requested components and assemblies, nearly all of which may be ordered [online](#).

About CDM

For over 20 years, [CDM Electronics](http://www.cdmelectronics.com/) has delivered interconnect product and cable assembly solutions to the world's leading aerospace, military, telecom, automotive, industrial, commercial, and alternative energy providers. Renowned for its unsurpassed levels of customer service and support, the company supplies Original Equipment Manufacturers (OEMs) with full lines of standard and specialty connectors including circular, Mil-Spec, DIN, power,
