CDM Electronics Announces Availability of Full Line of Eaton Hotshoe Interconnects

Turnersville, NJ, July 20, 2020... CDM Electronics has announced the availability of Eaton's full line of multifunctional C4ISR/tactical communications rectangular Hotshoe signal interconnects.

Eaton's hotshoe interconnects are available in 22-pin and 32-pin configurations that include both panel and cable mounted connectors with grounded and non-grounded versions. Options include unique self-cleaning accordion-style contacts or standard spring-mounted contacts.

Eaton's unique contact design provides for maximum performance in all conditions. "The scrubbing action of the accordion-style contacts provides exceptional connectivity even after being exposed to moisture" said Dominic Veteri, Product Manager at CDM Electronics, "along with the space-saving flat-profile design of the pin contacts themselves."

All versions feature internal moisture sealing environmental protection and are 360° EMI/RFI shielded. Hotshoe products have single or redundant contact patterns with pointed, cupped, or radiused-tip geometries for optimum contact during mating. Tail configurations include through hole, SMT, vertical mating, and right-angle mating orientations for optimum mounting application flexibility. Ruggedized construction features nickel-plated aluminum shell and Ultem 100 pin block.

About CDM

For over 25 years, [CDM Electronics](http://www.cdmelectronics.com/) has delivered interconnect products and engineered cable assembly solutions to the world's leading aerospace, military, telecom, automotive, industrial, commercial, and alternative energy providers. Renowned for its unsurpassed levels of customer service and support, the company supplies Original Equipment Manufacturers (OEMs) with full lines of standard and specialty connectors including circular, Mil-Spec, DIN, power, PROFIBUS, rectangular, and RF interfaces. CDM employs documented and controlled systems in its value-added division, which specializes in mission critical [cable assembly](#), including [RF cable assembly](#), [military](#)

[cable assembly](#), [power cable assembly](#), and [box builds](#). The company's ISO, AS9100 and Nadcap Certified headquarters is in Turnersville, NJ. CDM maintains a manufacturing facility in Salisbury, MD, and a regional office and distribution facility in Richardson, TX.
