CDM Electronics Received Nadcap Reccreditation for Electronics

Turnersville, NJ, September 1, 2020... CDM Electronics has announced the Company received Nadcap (National Aerospace and Defense Contractors Accreditation) continued accreditation from the Performance Review Institute (PRI) for electronics.

“The achievement of Nadcap reccreditation further certifies CDM’s ongoing efforts to supply the aerospace and defense industry with superior products and services, which meet and often surpass customer requirements and industry specifications,” said Mike Licchetto, Quality Systems Document Control Specialist at CDM Electronics. “This reccreditation represents our continued steadfast commitment to the aerospace and defense sectors on a truly global scale. We are proud of our engineering and quality control teams, along with our entire staff, who are dedicated to the standards of our quality management system.”

Created in 1990 by SAE Inc., Nadcap is administered by the not-for-profit Performance Review Institute. PRI is a global provider of customer-focused solutions designed to improve process and product quality by adding value, reducing total cost and promoting collaboration among stakeholders in industries where safety and quality are shared goals. PRI works closely with industry to understand their emerging needs, offering customized solutions.

CDM’s interconnect products and engineered cable assemblies are widely employed by the world’s leading aerospace and defense companies. They are most commonly specified in mission-critical commercial and private aircraft avionic systems, commercial aircraft onboard entertainment systems, rotary wing aircraft avionics and onboard electronics, military aircraft avionics and fire control, as well as in space flight applications.

About CDM

For over 25 years, [CDM Electronics](http://www.cdmelectronics.com/) has delivered interconnect products and engineered cable assembly solutions to the world's leading aerospace, military, telecom, automotive, industrial, commercial, and alternative energy providers. Renowned for its unsurpassed levels of customer service and support, the company supplies Original Equipment Manufacturers (OEMs) with full lines of standard and specialty connectors including circular, Mil-Spec, DIN, power, PROFIBUS, rectangular, and RF interfaces. CDM employs documented and controlled systems in its value-added division, which specializes in mission critical [cable assembly](#), including [RF cable assembly](#), [military cable assembly](#), [power cable assembly](#), and [box builds](#). The company's ISO, AS9100 and Nadcap Certified headquarters is in Turnersville, NJ. CDM maintains a manufacturing facility in Salisbury, MD, and a regional office and distribution facility in Richardson, TX.
